

4.6 Repeat change (no standard)

It is possible to change the drive ratio between the main shaft and the pattern drum by exchanging the toothed belt disks on the repeat preset gear as follows:

repeat	*toothed belt disk		*length of toothed belt	*arrangement of tension rollers	
	A	B			
1 : 24	24	36	720 mm	1	
1 : 20	36	45	800 mm	1	no standard
1 : 18	32	36	720 mm	2	no standard
1 : 16	40	40	800 mm	1	
1 : 14	32	28	720 mm	2	no standard
1 : 12	40	30	720 mm	2	
1 : 10	48	30	800 mm	1
